May 2023

## Fox Hunting Primer at the May Meeting

The [next KARS meeting](#) will be Tuesday, May 9 at 7PM.

There will be a program on transmitter hunting with show and tell...so bring some of the things that you use in a hunt.

The program will be followed by a short business meeting.

See you at the meeting!

### FIELD DAY

Bill N9OE and Diane N9DLD have again volunteered their QTH in rural Bonfield as the KARS [2023 Field Day](#) site. Their place is located on twenty beautiful acres about 1/2 mile West and 1/2 mile North of Bonfield.

Setup will be starting about 10am Saturday morning June 24th. We will need as many members as possible at setup to help erect the antennas. Operation will continue till Sunday at 1pm. You may come and go as you please. Tear down at Sunday June 25th at 1pm.

There will be the traditional Saturday evening cookout. A grill will be provided and the club will supply burgers, brats and buns or bring your own preferred meat. Bring a chair, your own table service, beverage and a dish to share. We will use the KARS club call W9AZ and K9FO for the GOTA station.

For full 2023 ARRL Field Day rules and suggestions go to:

[www.arrl.org/fieldday](http://www.arrl.org/fieldday)

May 1	KD9NPQ
May 8	KC9HDF
May 15	N9OE
May 22	N9FD
May 29	K9XI

Don't forget the net!

## See you at Dayton Hamvention 2023!!!

# DX World DXpedition Calendar

May 1 through May31

## AND THE DX JUST KEEPS ON A COMING!

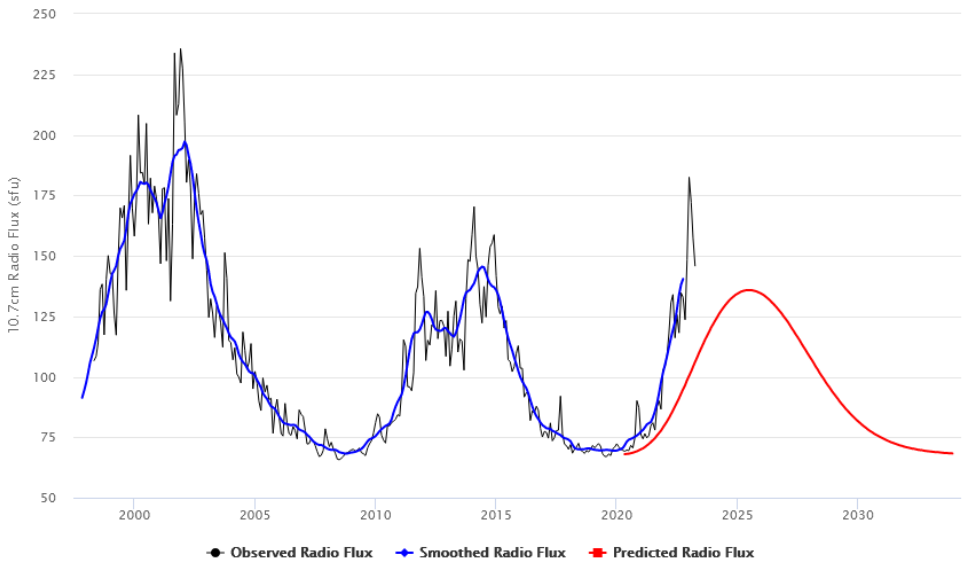

As solar activity continues to build month after month, the DX opportunities and activity also soars.

Bands like 15, 12 & 10 Meters that for years seemed deader than the microwave bands are open to all parts of the world, often well after dark.

The graph to the right shows stunning levels of Solar activity surpassing the predicted curve.

Check out the DXpedition calendar above and see what you need towards your DXCC and other rewards. There are a lot of great DX operations who can't wait to QRV (get on the air) now that the Chinese Plague is finally over and everyone is free to travel again. Be sure to get your share!

Solar Cycle progression - F10.7cm Radio Flux

## ARRL SOLICITS INPUT ON DUES INCREASE

Monday, May 1st, ARRL launched a survey for members, encouraging their participation to consider a dues increase. Participation is important. Be sure to take the survey and let your feelings be heard...pro or con. No complaining allowed about your dues if you don't take the time!

## FCC PROPOSES 60 METER BAND EXPANSION

The FCC is seeking comments on expanding the 60 Meter band to a continuous 15 kHz...an increase in size and a removal of the CB type channelization.

More details on the NPRM can be found by searching for ARLB006 at the ARRL web site: [www.arrl.org](http://www.arrl.org)
